PGP Command Line

This Privacy Transparency Notice describes how Command Line (“Product”) collects and processes Personal Data. Its purpose is to provide You (our current or prospective “Customer”) the information You need to assess the Personal Data processing that is involved in using the Product.

1. Product Description

Symantec Command Line powered by PGP Technology enables organizations to quickly and easily integrate encryption into batch processes, scripts, and applications to ensure the security of corporate data at rest or in transit. Whether your challenge is protecting credit card information, financial transactions, payroll, medical records, or other confidential information, Command Line's scriptable encryption is a key part of an organization's data protection tool kit.

Further information about the Product is available at:

<https://www.symantec.com/products/command-line>

2. Personal Data Collection And Processing

Sources of Data

The product collects license information at the time of initial configuration. Since it is a command line tool, it gets the data it processes through command line arguments and file system. User keys are stored on the filesystem. Symantec does not obtain any of this data.

Respective Roles of Symantec and Customer

With respect to Personal Data collected by the product during its use, the customer is the controller. The use of the Product does not involve Symantec as a data processor.

Personal Data Elements Collected and Processed, Data Subjects, Purpose of Processing

Personal Data Category	Data Subject Category	Purpose Of Processing
Individual identifiers (names) contact information (email, phone, address), financial information (payment information, banking details, transaction records)	Customer employees and contractors	Licensing and invoicing
Online identifiers and trackers (authentication cookies)	Customer employees and contractors	Communication with the server
Any Personal Data in files which the customer encrypts using the product	Any data subject whose Personal Data is contained in files which the customer encrypts using the product	Protection of information

Personal Data Retention Schedule

As the Controller, the Customer is solely responsible for defining and implementing the retention policies and periods applicable to Personal Data collected through the use of the Product. The use of the Product does not involve Symantec as a Data Processor.

3. Disclosure and International Transfer of Personal Data**Third-Party Sub-Processors**

No third-party sub-processor is involved in delivering the Product.

International Transfers of Personal Data

As the controller, the customer is solely responsible for complying with any rules applicable to the international transfers of Personal Data that the customer collects by using the product. The use of the product does not involve Symantec as a data processor.

4. Exercise Of Data Subject Rights

As the controller, the customer is solely responsible for complying with any rules applicable to the exercise of Data Subject Rights related to Personal Data that the customer collects by using the product. The use of the product does not involve Symantec as a data processor.

5. Information Security**Technical and Organizational Measures**

It is Symantec's and all of its affiliated entities' commitment to implement, and contractually require all sub-processors to implement, appropriate technical and organizational measures to ensure an appropriate level of security, taking into account the state of the art, the costs of implementation and the nature, scope, context and purposes of processing as well as the risk for the rights and freedoms of Data Subjects. Additional security documentation is available on the [Symantec Customer Trust Portal](#).

Applicable Information Security Certifications

Command line on Windows uses FIPS 140-2 approved cryptography (certificate available: <https://csrc.nist.gov/projects/cryptographic-module-validation-program/Certificate/2377>).

The product implements NIS-approved cryptographic controls to protect sensitive data.

This notice is the sole authoritative statement relating to the Personal Data processing activities associated with the use of this Product. It supersedes any prior Symantec communication or documentation relating thereto.
